Healthcare Providers, Practitioners and Administrators
- Is your facility HIPAA – Compliant?

Problem

- Current HIPAA legislation unleashes more stringent enforcement, penalties, greater protocols, even more complex rules and regulations.
- The risks, liabilities and costs with non-compliance are simply untenable.
- We exist in a world of constant cyber-threats, PHI loss or misuse, breaches and associated risks.

HIPAA compliance is a complex process requiring serious commitment of time, resource and effort. It is not funny nor are there any quick fixes. What to do? Is there hope?

**Absolutely Yes
