

PRACTICE METRIX

Our Mission:

To constantly strive to think and operate outside the box.
To provide what we consider elegance. To offer the simplest
solutions for any challenge our end users would encounter
while searching for success and profitability.

Who We Are

Practice Metrix is unlike any other consulting company. Consisting of eight locations, twelve providers, and medical professionals like yourself, our team ensures that the necessary dedication to innovation is always met. Our team provides on-site visits, working in tandem with your surgical schedule, at your front desk, and with your billing department to create a comprehensive and holistic review of your business. By working directly with your staff, we can quickly identify and provide solutions to your pain points and evaluate your staff simultaneously. Every oral surgery practice is different and requires a team that understands that “cookie cutter” solutions aren’t cutting it in our current OMFS community.

Once the unmet needs are identified, our team provides coaching and mentoring for all executive members of your practice. This includes leadership and management coaching for new managers, and the assigning of “partner/coaches” for each of your workforce members including, Implant Treatment Coordinator/Marketing, Clinical Care Coordinator, Billing Manager, and Customer Relations Managers.

What We Offer

An AAOMS Advantage Partner Dashboard

Practice Metrix presents a true real time “360 one click” business analytics application.

The “Pilot” is a comprehensive real time reporting and analytical tool that is fully interactive turning data from many to one or one too many – resulting in actionable, intelligent analytical inferences. The application seamlessly works with any database source and can be deployed as a valuable add-on to any EMR, HIS or generic analytical platform or functions as a standalone.

Coding Review

Our coding specialists will complete a full coding review for your practice to identify unbilled and under-billed revenue. We will generate more revenue for your practice without affecting your workload.

Business Coaching

Our coaches identify potential enhancements to your processes, scheduling, marketing, coding, billing, and all other daily operations. Then, we partner with your staff to implement and drive the recommended changes. We do the work, while you do surgery. Let us take the noise out of your daily routine.

Revenue Cycle Management

Finding, hiring, and retaining a qualified billing/coding staff is often one of the largest pain-point issues in healthcare management. Practice Metrix Billing services helps practice overcome staffing challenges and achieve efficient, consistent, and compliant coding. Rely on our expert billing team to optimize reimbursements for your Practice.

Our experts can help you with as much, or as little, as you require. Whether you seek to add greater expertise in revenue cycle management, eliminate the hassles of managing billing, collections, and claims, or simply want to identify and put a value to your revenue cycle opportunities, our revenue cycle services can help.

Implant Boot Camp

This course is available online or at our training facility. Having come from an oral surgery background, we understand the importance of referral relationships to your business. With more GP's bringing specialists in house, you want to make sure you not only maintain a strong presence in the dental community, but also have a plan to expand your referral footprint. Our proven methods can grow your referral base and increase your productivity financially.

My Patient Exchange

My Patient Exchange is a 24x7, real-time, HIPAA secure communication and document repository, available on any device with Internet connectivity for sharing patient images, referral cards, treatment plans, tooth charts, follow-up letters, and much more.

“To our doctors, our solutions provide a comfort level, efficiency, peace of mind and increased revenue. Especially in regard to the time that is being saved. With Practice Metrix, Smart Predictive Procurement, or any of our other solutions, we truly give you the ability to become the CEO of your practice. And the best thing is, it is so easy to use, you don’t need an MBA to understand it.”

-Sean M. Wild
