

MY PATIENT EXCHANGE

REFER – COLLABORATE – TRACK – MANAGE

“ One easy portal to track referred patients, share images, send follow up letters, consult with your GP’s, Lab and Implant Representative. ”

FEATURES

- Web based access & storage
- Puts important stakeholders in one eco-system
- Dynamic, Intuitive Calendar
- Eliminates expensive "archaic snail mail" saving \$35K in mail
- Solution to the perception of "losing their patients"
- Eliminates constant phone tagging
- No more lost X-Rays
- Embedded Digital Referral Card, Treatment Letters, Communications
- Treatment Care Coordination

The solution that resolves communication challenges faced by the GP, Specialists, Treatment Coordinators, Labs and Implant Reps during the patient treatment life-cycle.

WEB BASED ACCESS & STORAGE

Web/Cloud based access for total referred patient care on any device, anytime, anywhere.

Cloud based storage – Document and Information repository.

PATIENT MANAGEMENT DASHBOARD

My Patient Exchange is a real-time, 24x7, secure, HIPAA compliant communications and document repository available on any device with internet connectivity for sharing images, referral cards, tooth charts, follow-up letters and notes.

DYNAMIC, INTUITIVE CALENDAR

Intuitive, Shared, Dynamic, Calendar for total patient treatment life-cycle collaboration. MPE's calendar serves as a dashboard that ties Specialist, GP, Implant Coordinator, Implant Rep and Lab together seamlessly even in the most complicated of treatment plans.

EMBEDDED DIGITAL REFERRAL CARD, LETTERS, IMAGES

Increases with certainty, the capture of every referred patient as the specialist gets immediate notification with patient demographics. Patient gets immediate call to action from the specialist.

TREATMENT CARE COORDINATION

Simplifying complex communications between disparate Dental providers, laboratories, internal practice support staff and the Implant Representatives.

ANNOUNCEMENTS - NOTIFICATIONS

- Announce, advertise, notify users directly via the portal.
- Allows decision makers directly communicate with staff and user groups.
- Alert users about events, conferences, educational material and opportunities.
- Universal or localized communications via the portal.

A secure, HIPAA compliant web based solution that is seamless and saves thousands of dollars in the implant patient treatment care life-cycle from referral to specialist to care coordinators to labs and implant reps.
