**PRACTICE
METRIX**

**AAOMS Advantage
Partner**

Where are you on your digital journey from going from analog to digital?

1. Ready to Go Digital

Considering the purchase of an intra-oral scanner – using CBCT.

2. On the Digital Path

Practice has an Intra-Oral Scanner and CBCT – Maybe not using the IOS at all or only using for specialized cases.

3. The Digital Guided Surgeon

Intra-Oral Scanning and CBCT Record Acquisition – Guided Surgery Kit – Using Planning/Lab service to plan cases and print guide

MPE/Practice Metrix – services available for guided surgery planning – team training.

4. Fully Guided Digital Surgeon

IOS and on every patient – guided surgery is the standard of care in your practice.

5. The DIY Digital Fully Guided Surgeon

All cases guided – Practice has **IOS, CBCT, 3D Printer**. Understanding of the planning software. Planning cases in-house. Printing Guides in-house.

6. Full-Arch Guide Workflow

Digitally planning all FA cases. Utilizing **IOS** and **Photogrammetry** along with a team approach, General Dentists/Labs, to deliver Temporary and “Final” precision fit prosthetics.

7. The Digital Difference Maker for Precise Outcomes

All surgical cases digitally planned are available for case collaboration and communication between referrals / Specialists/Labs/Reps for precise patient treatment care through the **My Patient Exchange (MPE)** Digital Collaborator.

Not Comfortable in the Beginning? PM Offers Digital Planning and Full Arch Implementation Services.

Practice Metrix - understands there is a lot to coordinate in the beginning of your digital transformation, and as such, offers a partner integration support service per case to ensure you can concentrate on the surgery for your first few cases, while we tie your teams together.
